EDUCATION

Rungta College of Engineering and Technology - Chhattisgarh, India September 2022 - May 2026
Bachelor of Technology, Computer Science and Engineering; Cumulative CGPA: 7.03/10.0
Jindal Adarsh Gramya Bharti School - Chhattisgarh, India April 2021 - March 2022
Higher Secondary Education (PCM); Percentage: 60%

TECHNICAL SKILLS

Cloud & Infrastructure: AWS (EC2, S3, IAM, VPC, ALB, ECS, ECR, EKS, Lambda, API Gateway, CloudFront, CloudWatch, Cognito, EventBridge), Terraform (Basic).

Storage & Backup: Amazon EBS, EBS Snapshots, AWS Backup

DevOps & CI/CD: GitHub Actions CI/CD Pipelines, Docker, Kubernetes, NGINX, Linux Administration, Deployment Automation.

Monitoring & Security: CloudWatch Logs & Metrics, Secure Access Management, HTTPS, Load Balancing.

Programming & Scripting: Python, JavaScript, Shell Scripting, ReactJs and NodeJs (Basic).

Version Control & Tools: Git, GitHub, Postman.

WORK EXPERIENCE

Full Stack Developer Intern - Cloud/DevOps Focus

Theblackthreat Solutions, Remote

December 2024 - June 2025

- Architected CI/CD pipelines with GitHub Actions for automated build and deployment to AWS S3 and CloudFront. Accelerated release cycles by 60%.
- Strengthened authentication security using AWS Cognito and IAM policies. Reduced unauthorized access risks by 30%.
- Optimized REST APIs on Amazon API Gateway with caching and custom domain configuration. Reduced response latency by 25%.
- Monitored infrastructure using AWS CloudWatch. Resolved 20+ weekly alerts and increased system uptime by 40%.

CERTIFICATIONS & TRAINING

- AWS Certified Cloud Practitioner - Amazon Web Services (AWS) | September 2026 - September 2029
Credential ID: 2a55139002d04594964ef0fa529a0de6
- GitHub Actions Certification - Microsoft | March 2026 - March 2028
Credential ID: 851CD8A361769981
- Azure Ai-900 Training - Coding Spoon

PROJECT EXPERIENCE

Memories of Miles - Travel Journal Webapp

November 2025 - December 2025

- Provisioned AWS infrastructure using Terraform. Configured VPC, EC2, ALB, routing tables, and security groups for production-grade deployment.
- Deployed Docker containers on EC2 with ALB target groups and health checks. Ensured high availability and traffic distribution.
- Integrated CI/CD automation and CloudWatch monitoring to enhance deployment reliability and system stability.

Full-Stack Chat Application - Kubernetes Deployment (KIND on EC2)

September 2025 - October 2025

- Containerized a full-stack real-time chat application using Docker and deployed it on a Kubernetes cluster (KIND) running on AWS EC2.
- Managed Kubernetes resources using YAML manifests including Deployments, Services, ConfigMaps, and Secrets for scalable and secure application configuration.
- Implemented Horizontal Pod Autoscaler (HPA) based on CPU utilization to automatically scale chat service pods during high traffic.

Cloud-Based Static Website Deployment (AWS S3 + CloudFront + CI/CD)

August 2025 - September 2025

- Delivered static website hosting on AWS S3 integrated with CloudFront CDN. Optimized global content delivery performance.
- Applied IAM roles and bucket policies across 10+ S3 resources. Enforced least-privilege access control.
- Built GitHub Actions pipelines for continuous S3 deployment, Enabled centralized monitoring via CloudWatch.
